## **Have you been picked up with drugs by the Police?**

**This program is about keeping people with minor drug offences out of the criminal justice system, and at the same time providing contacts if there are drug issues to be looked at.**

**We have been contacted by the Drug Diversion Line, and they have informed us that you have recently been picked up by the Police.**

**Now instead of going to Court, you can come in and talk with an Assessor to see where we may be able to help.**

## **What Happens?**

**You come in and talk with people who are culturally aware, usually an Aboriginal person will be present.**

**The only thing you must do is turn up for the Assessment, this is when you tell us a bit more about yourself, especially about your drug use or issues.**

**We are not about forcing you to do anything, we only help you if you want us to. Contact with other service providers may be made on your behalf if you wish.**

**If you are under 18 years old you can bring a parent or guardian along, we may need to get their consent to talk with you.**

## **What you need to do**

**If you have not spoken to us ring 8362 0395 and ask to speak with the Diversion Worker**
